

APPENDIX I

PRACTICE NOTE

WAITANGI TRIBUNAL

CONCERNING the Treaty of Waitangi Act 1975

AND Rangahaua Whanui and the claims as a whole

PRACTICE NOTE

This practice note follows extensive Tribunal inquiries into a number of claims in addition to those formally reported on.

It is now clear that the complaints concerning specified lands in many small claims, relate to Crown policy that affected numerous other lands as well, and that the Crown actions complained of in certain tribal claims, likewise affected all or several tribes, (although not necessarily to the same degree).

It further appears the claims as a whole require an historical review of relevant Crown policy and action in which both single issue and major claims can be properly contextualised.

The several, successive and seriatim hearing of claims has not facilitated the efficient despatch of long outstanding grievances and is duplicating the research of common issues. Findings in one case may also affect others still to be heard who may hold competing views and for that and other reasons, the current process may unfairly advantage those cases first dealt with in the long claimant queue.

To alleviate these problems and to further assist the prioritising, grouping, marshalling and hearing of claims, a national review of claims is now proposed.

Pursuant to Second Schedule clause 5A of the Treaty of Waitangi Act 1975 therefore, the Tribunal is commissioning research to advance the inquiry into the claims as a whole, and to provide a national overview of the claims grouped by districts within a broad historical context. For convenience, research commissions in this area are grouped under the name of Rangahaua Whanui.

In the interim, claims in hearing, claims ready to proceed, or urgent claims, will continue to be heard as before.

Rangahaua Whanui research commissions will issue in standard form to provide an even methodology and approach. A Tribunal mentor unit will review the comprehensiveness of the commission terms, the design of the overall programme, monitor progress and prioritise additional tasks. It will comprise Tribunal members with historical, Maori cultural and legal skills. To avoid research duplication, to maintain liaison with interested groups and to ensure open process:

Public Works Takings of Maori Land, 1840–1981

- (a) claimants and Crown will be advised of the research work proposed;
- (b) commissioned researchers will liaise with claimant groups, Crown agencies and others involved in treaty research; and
- (c) Crown Law Office, Treaty of Waitangi Policy Unit, Crown Forestry Rental Trust and a representative of a national Maori body with iwi and hapu affiliations will be invited to join the mentor unit meetings.

It is hoped that claimants and other agencies will be able to undertake a part of the proposed work.

Basic data will be sought on comparative iwi resource losses, the impact of loss and alleged causes within an historical context and to identify in advance where possible, the wide ranging additional issues and further interest groups that invariably emerge at particular claim hearings.

As required by the Act, the resultant reports, which will represent no more than the opinions of its authors, will be accessible to parties; and the authors will be available for cross-examination if required. The reports are expected to be broad surveys however. More in-depth claimant studies will be needed before specific cases can proceed to hearing; but it is expected the reports will isolate issues and enable claimant, Crown and other parties to advise on the areas they seek to oppose, support or augment.

Claimants are requested to inform the Director of work proposed or in progress in their districts.

The Director is to append a copy hereof to the appropriate research commissions and to give such further notice of it as he considers necessary.

Dated at Wellington this 23rd day of September 1993
