## THE AUTHORS

Robin Hodge completed a Bachelor of Arts degree in history in 1990, and a Diploma in Humanities in history in 1993 – both from Massey University. For the Diploma in Humanities Robin wrote a research essay that examined the establishment of Abel Tasman National Park through the efforts of Pérrine Moncrieff. In 1999 she completed a doctoral thesis in History that examined Moncrieff's work for nature conservation in New Zealand. Robin has recently contributed to a chapter for the forthcoming Oxford environmental history of New Zealand.

Cathy Marr holds a Bachelors degree in History and Political Science from Victoria University. Since the early 1980s she has worked as an archivist and historian both in permanent positions and in a freelance capacity. Cathy has completed several major reports for the Waitangi Tribunal, the Crown Forestry Rental Trust, and the Office of Treaty Settlements. These include: 'Crown-Maori relations in Te Tau Ihu: Foreshores, Inland Waterways and associated Mahinga Kai'; *The Alienation of Maori Land in the Rohe Potae (Aotea Block)*; *Public Works Takings of Maori Land, 1840–1981*; 'Whanganui Land Claims: Historical Overview'; and 'Crown Policy Towards Major Crown/Iwi Claim Agreements of the 1940s and 1950s'.

Ben White graduated from Canterbury University in 1992 with a Bachelors degree in New Zealand history. In 1994 he completed a Masters of Science in natural resource management at Lincoln University and Canterbury University. Ben was employed as a research officer by the Waitangi Tribunal in April 1995. Since then he has researched and written reports on the McKee oilfield, the West Coast Settlement Reserves, the acquisition of the Puketapu blocks for the New Plymouth Airport, and an overview report on lakes.

## **ACKNOWLEDGEMENTS**
